**DETAILED ACTION**

***Response to Arguments***

Applicant's argument, see page 6 - lines 13-16, page 9 - lines 16-20, and page 10 - lines 1-15 filed on 03/13/2008, with respect to claims 1-4, 6-7, and 9 have been fully considered and are persuasive. Therefore, the rejection of claims 1-4, 6-7, and 9 has been withdrawn.

***Allowable Subject Matter***

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior arts of record fail to teach or suggest an embossing station for an embossing apparatus provided for transferring a transfer layer of an embossing film onto an element to be embossed upon, comprising two support rollers which are mutually axis-parallel relationship and are spaced from each other, at least one deflection roller spaced from the support roller and in axis-parallel relationship with the support rollers, around which an embossing belt is deflected, wherein between the two support rollers, a support body is positioned which supports the embossing belt and include a sliding surface which is in a tangential plane connecting the two support rollers together, as claimed in claim 1. The closest prior arts of record, Mitsam (PCT/DE03/01042), Sagane et al (US 3,917,774), and Kremer et al (US

Art Unit: 1791

5,458,477) fail to teach an embossing station including two support rollers and one deflection roller wherein between the two support rollers, a support body is positioned to support the embossing belt and, further, the support body including a sliding surface which is in a tangential plane connecting the two support rollers together. Therefore, claims 1- 9 deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
